Applications

● Applications: 10,585, 34% lower than previous quarter

- ◆ Applications for asylum in the UK in Q2 were 10,585, a third less than Q1 (16,000) and less than half the level in Q4 2002 (22,760). Applications in May fell to the lowest monthly level for five years (3,280).
- ◆ Applications to the rest of the EU (excluding Italy) fell by 14% in Q2 from Q1.
- ◆ Including dependants, the number of asylum applicants was 12,510 in Q2, compared with 20,600 (estimated) in Q1.

● Largest nationalities: Somalia, Zimbabwe, China

- ◆ Somali nationals accounted for the most applications (900), 41% less in Q2 than in Q1.
- ◆ Iraqi applications fell by 70% in Q2 to 635; the lowest level since Q1 2000 and no longer the top nationality.
- ◆ Applications from Zimbabwe nationals fell by nearly a quarter (24%) in Q1, continuing the fall since November, following the introduction of a visa regime.
- ◆ Applications from nationalities subject to non-suspensive appeal (NSA) provisions of the NIA Act wave 1⁽¹⁾ fell to 70 in Q2 from 105 in Q1, and wave 2⁽²⁾ fell to 715 in Q2 from 1,435 in Q1.
- ◆ Applications from Indian nationals increased by nearly a third (32% to 645).

Initial Decisions

● Initial Decisions: 14,655, 29% lower than previous quarter

- ◆ 14,655 initial decisions were made in Q2, still higher than the level of applications, but lower than in Q1 (20,765), reflecting a managed reduction in decisions due to lower application levels. Initial decisions were suspended on Iraqi cases between 20 March 2003 and 16 June 2003.
- ◆ 31,800 cases awaiting an initial decision at the end of June (lower than 36,300 at the end of March); of these 8,900 cases were work in progress i.e. the application had been outstanding for 6 months or less.
- ◆ Initial decisions were made during Q2 on asylum applications relating to 17,830 asylum seekers including their dependants compared with 26,800 (estimated) during Q1.
- ◆ 7% of initial decisions granted asylum in Q2, the same as Q1. Humanitarian Protection (HP) and Discretionary Leave (DL) replaced exceptional leave to remain (ELR) from 1 April 2003. The proportion granting HP or DL was 7% in Q2. 86% of initial decisions were refusals, the largest share since Q4 2000.

● Timeliness of Initial Decisions

- ◆ 74%⁽¹⁾ of applications⁽²⁾ received in 2002/03 had initial decisions reached and served within two months⁽³⁾, compared with 61% for 2001/02; 75% for applications in Q1 2003 (January to March). For applications⁽²⁾ received in 2001/02, 78% had initial decisions reached and served within four months⁽³⁾ and 84% within six months⁽³⁾.

⁽²⁾ Excludes withdrawals and 3rd country cases which may be the responsibility of other EU member states under the Dublin Convention. Home Office's Public Service Agreement target for 2001/02 was 60% and for 2002/03 is 65%. Details of the targets are given in the 2000 Spending Review Public Service Agreements White Paper at <http://www.treasury.gov.uk/>. Excludes asylum applications lodged by Iraqis between 1 February and 31 May 2003.

⁽³⁾ "Two months" is defined as 61 days; "Four months" is defined as 122 days; "Six months" is defined as 182 days.

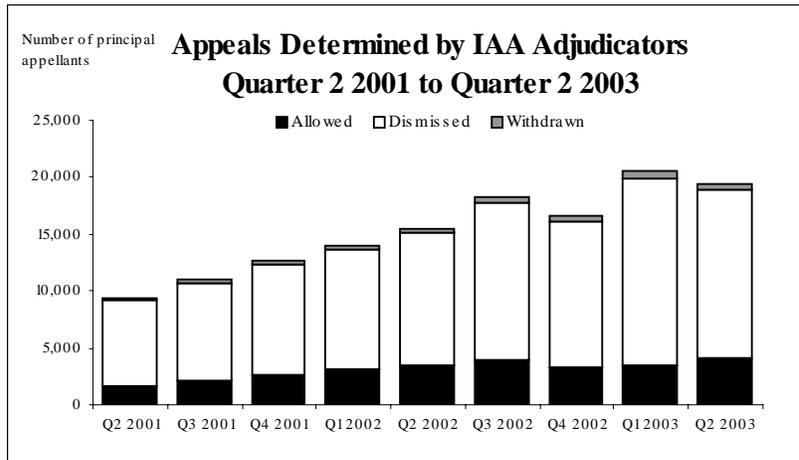

Appeals

● Appeals received: 10,800, 14% lower than previous quarter

- ◆ It is estimated that approximately 10,800 appeals were received by the Home Office in Q2 2003, compared with 12,600 in Q1.

● Appeals determined: 19,345, 6% lower than previous quarter

- ◆ The number of appeals determined by adjudicators fell slightly in Q2 by 6% to 19,345 from 20,595 in Q1. The number of appeals determined in Q2 was 25% higher than the number determined in Q2 2002 (15,525).
- ◆ The proportion of appeals dismissed fell to 77% in Q2 from 80% in Q1, and the proportion of appeals allowed rose to 21% from 17% in Q1⁽¹⁾.

- ◆ As at 30 June 2003, there were an estimated 20,000 appeals lodged with the Immigration and Nationality Directorate which had not been sent to the Immigration Appellate Authority; a proportion of appeals lodged do not result in appeal bundles being sent to the IAA. The total asylum work in progress in the IAA as at 30 June 2003, was 29,500 (19,900⁽²⁾ at the Adjudicator Tier, 5,000⁽²⁾ applications for permission to appeal to the Tribunal, and 4,700⁽²⁾ Tribunal Appeals).

● Timeliness of Appeal Decisions

- ◆ Provisional data show that 43%⁽³⁾ of asylum appeals received by the IAA in 2001/02 were determined within 17 weeks (including those appeals also dealt with by the second tier of the IAA). The corresponding figure for April 2002 to February 2003 was 43%⁽⁴⁾⁽⁵⁾, compared with 42% for April to November 2002.

⁽¹⁾ Based on management information for January to July 2002, it is estimated that around nine out of ten allowed appeals resulted in grants of asylum (indefinite leave to remain), with the remainder resulting in grants of ELR.

⁽²⁾ Figures are rounded to the nearest hundred. Figures may not sum due to rounding.

⁽³⁾ Source: IAA database IRIS as at 21 August 2002. The IAA's target is to clear 65% of all asylum cases through both appellate tiers within 4 months. This was a Court Service target for 2001/02, but is a formal Service Delivery Agreement for this year (2002/03), as described within the Department for Constitutional Affairs Service Level Agreement, at <http://www.lcd.gov.uk/deptobj/sda/lcdsda.pdf>. Due to the nature of the target, 17 weeks has to elapse from the date of receipt of an appeal before it can be reported on.

⁽⁴⁾ The IAA received 5,000 extra cases from the Home Office in September 2002 in addition to the 4,500 expected. Excluding the 5,000 additional cases, 46% of asylum appeals received in the period April 2002 to February 2003 were determined within 17 weeks.

⁽⁵⁾ Source: IAA database IRIS as at 24 July 2003.

Removal of Asylum Seekers

● 3,145 principal applicants removed in Q2; 4,280 including dependants

- ◆ Provisional data show that there were 3,145 principal applicants removed from the UK in Q2. This was 20% more than in Q1 (2,620) and 18% more than in Q2 2002 (2,660).
- ◆ Including dependants, a total of 4,280 asylum seekers were removed in Q2. This was 7% more than in Q1 (3,990) and 32% more than in Q2 2002 (3,235).
- ◆ Nationality data are not currently available for Q2, but estimates of the main nationalities of principal applicants removed in Q1 2003 are shown below. The top ten nationalities removed accounted for 63% of the total.
- ◆ In Q1, the three nationalities accounting for the most removals of principal asylum applicants were Federal Republic of Yugoslavia (475). Czech Republic (270), and Poland (260).

NASS Applications

● Total applications: 9,985, 37% lower than previous quarter

- ◆ 9,985 applications for NASS support⁽¹⁾ in Q2, 37% lower than Q1 (15,780) and 43% lower than Q2 2002. Separately, 1,830 asylum applications were notified that they were ineligible to apply for NASS support under Section 55 of the Nationality, Immigration and Asylum (NIA) Act 2002 compared with 2,850 in Q1.
- ◆ In Q2, 8,360 (84%) applications were from single adults and 1,625 (16%) were from family⁽¹⁾ groups.
- ◆ The lower level of NASS applications in this quarter reflect lower levels of asylum applications in the previous quarter.

- ◆ In Q2, 4,010 (40%) of applications were for accommodation and subsistence support⁽²⁾ and 4,080 (41%) of applications were for subsistence only support. The remaining 19% of applications were deemed invalid or the application type has not been identified.

● Top Ten Nationalities: Fall in applications from Somalia and Iraq, rise in applications from India

- ◆ In Q2, applications from Somali and Iraqi nationals fell by half (50% and 49% respectively) while applications from Indian nationals rose by half (49%), the only nationality in the top 10 to show a rise this quarter.

⁽¹⁾ See "NASS definitions" in background notes (page 11). Section 55 of the NIA Act 2002 came into force on 8 January 2003, restricting the availability of NASS support to those asylum seekers who make an asylum application as soon as reasonably practicable. This affects comparability of data with previous quarters.

⁽²⁾ Includes accommodation only and accommodation and subsistence support applications.

Supported Asylum Seekers

The totals below represent the numbers of asylum seekers⁽¹⁾ who are currently residing in NASS accommodation⁽²⁾ or are in receipt of subsistence only support. They reflect the numbers of new applicants granted support and exclude applicants for whom support has been ceased. These figures do not account for asylum seekers who are not supported by NASS.

As at the end of June 2003:

- **37,440 asylum seekers⁽¹⁾ were receiving subsistence only support**
- **53,050 asylum seekers⁽¹⁾ were supported in NASS accommodation⁽²⁾**

- ◆ The regions with the five highest populations of asylum seekers in NASS accommodation⁽²⁾ were: Yorkshire & the Humber (19%), North West (18%), West Midlands (18%), Scotland (11%), North East (10%).
- ◆ Within the regions NASS disperses asylum seekers to cluster areas in Local Authorities (see Table 9). The Authorities with the ten highest populations of dispersed asylum seekers were: Glasgow, Birmingham, Liverpool, Leeds, Newcastle, Manchester, Coventry, Bradford, Wolverhampton and Sheffield.
- ◆ 27,350 (73%) of all asylum seekers in receipt of subsistence only support were located in London as were all of the top ten Local Authorities where these asylum seekers are resident.
- ◆ The overall number of asylum seekers in receipt of NASS support⁽¹⁾ as at the end of Q2 was 2% lower than at the end of Q1 but 9% higher than at the end of Q2 2002. These figures do not show how many additional asylum seekers received support during the period.

Detention (as at 28 June 2003) – including dependants

● Asylum detainees: 1,355 detainees who had claimed asylum at some stage.

- ◆ At the end of June, 1,355 persons who had sought asylum at some stage were being detained in the UK under Immigration Act powers. This excludes persons detained in police cells and persons detained under dual immigration and other powers. Asylum detainees constituted 80% of all Immigration Act detainees.
- ◆ 290 asylum detainees were being held at the Oakington Reception Centre, 900 at Immigration Service Removal Centres, 40 at Immigration Short Term Holding Facilities, and 125 at prison establishments.

- ◆ The largest individual nationalities among asylum detainees were Afghan (145), Turkish (130), Jamaican (110) and Indian (100 detainees).
- ◆ 91% of asylum detainees as at 28 June were male.
- ◆ Excluding persons held at Oakington, the majority of asylum detainees had been in detention for less than two months. As at 28 June, 48% of asylum detainees had been in detention for less than one month, 18% for between one and two months, 14% for between two and four months, and 19% for four months or more.

Oakington Reception Centre

The Oakington fast track facility enables asylum claims which upon initial screening, appear to be straightforward and suitable for speedy decision making, to be determined in about 7-10 days. Statistics for Oakington relate to all cases received in a particular period (i.e. tracking a specific cohort of individuals) unlike other asylum statistics, which relate to all applications, decisions or appeals within a specific time period. It is therefore not necessarily meaningful to compare statistics for Oakington with overall totals.

● 1,975 cases received by Oakington Reception Centre (2,150 including dependants)

- ◆ Out of 1,975 cases received at Oakington during Q2, an initial decision was made on 1,745 (88%). In 40 cases the application was withdrawn. In 190 cases no final confirmation of a decision had been received when these statistics were compiled. The small balance of cases consisted entirely of cases taken out of the Oakington fast track process⁽¹⁾.
- ◆ Out of the 1,745 cases decided, there were 1,740 refusals, 1 or 2 grants of asylum and 1 or 2 grants of HP or DL.
- ◆ Appeals were received in 1,360 cases (78% of refusals).
- ◆ The top ten applicant nationalities accounted for 76% of all principal applicants received at Oakington.
- ◆ Overall intake increased by 63% in Q2 compared with Q1 (when 1,210 cases were received), and correspondingly the number of initial decisions made also increased (61%). India was the top applicant nationality with 400 applicants, and Turkey the second highest source nationality with 325 applications. In Q1 2003, the top three applicant nationalities at Oakington were Turkey (225), China (210) and India (185).
- ◆ Non-suspensive appeal (NSA) provisions have been applied since 7 November 2002 (Royal Assent to the NIA Act). NSA removes the right to an in-country appeal for those applicants whose claims are refused and certified as “clearly unfounded”. Refused and certified applicants are removed after service of the decision and must pursue any appeal from abroad.
- ◆ Subject to the criteria, applicants whose claims are considered to be straightforward are detained at Oakington for interview and decision. This includes those from the 24 countries on the designated NSA list.

Provisional data.

Data rounded to nearest 5 and may not sum due to rounding

⁽¹⁾ Cases may be taken out of the Oakington fast track process if more complex issues emerge, which were not apparent at the initial screening stage, necessitating additional enquiries which cannot be conducted within the Oakington timescales, or when it is decided that for whatever reason, the applicant is no longer suitable for fast track processing. These cases are then considered in the same way as they are for any other claims for asylum.

Note – revisions to data

1. All the UK asylum statistics produced on a quarterly basis are provisional. It is anticipated that the data will be revised in due course. It is not possible to evaluate whether the revisions will be upward or downward, however the reasons for revisions are likely to include:
 - (a) late reporting of cases – a small proportion of cases are not included when the statistics are calculated for the quarterly publication, although the number of such cases is estimated;
 - (b) the results of data cleansing exercises (data identified which cannot be included when the statistics are calculated for the monthly publication because of missing or invalid values, the identification of duplicates in the data);
 - (c) reconciliations with alternative sources of data which will identify cases not yet included in the statistics.

Definitions

2. Data included in this publication relate to principal applicants only, except where indicated otherwise.
3. Serbia and Montenegro (SAM) replaced Federal Republic of Yugoslavia (FRY) from 5 February 2003. SAM comprises of the Republic of Serbia, the Republic of Montenegro, and the province of Kosovo (administered by the UN on an interim basis since 1999).

Seasonality

4. A recent analysis of possible seasonality in the asylum applications data has provided insufficient evidence to justify seasonal adjustment. However, it is planned to review the data again in the future.
5. Users should note that the short time span available for NASS support statistics precludes seasonal analysis of the data at present. Changes from month to month discussed in the text may therefore be due in part to seasonal factors.

Numbers of applications and decisions (principal applicants) - revisions

6. There have been slight revisions to applications and initial decisions data for 2001 and 2002:-
 - applications (principal applicants) in 2001 revised down from the provisional 71,365 to 71,025;
 - initial decisions in 2001 revised up from 119,015 to 120,950;
 - applications in 2002 revised down from 85,865 to 84,130;
 - initial decisions in 2002 revised up from 82,715 to 83,540.

These revisions mainly arise from late entered data and removing duplicate cases, and a data cleansing exercise to fill in missing information and to correct inconsistencies.

Numbers of applications and decisions, including dependants - revisions

7. Including dependants, the number of applications in 2002 has been revised down from the provisional 110,700 to 103,080, and the number of asylum seekers on whom an initial decision was made was revised down from 106,600 to 103,450. Data on applications and decisions have been revised following incorporation of dependants information for 2002

based on exact information which is now recorded about individual dependants. The provisional 110,700 was based on past years' data for the estimated ratio of dependants per principal applicant.

NASS definitions

8. Application figures include both the first and any subsequent re-application by an applicant although duplicate applications within the same month are removed. An application from a family group (a principal applicant with at least one dependant) is treated as a single application. Principal applicants for support may in some cases be dependants of principal asylum applicants.
9. The figures for applications for NASS support in each month are based on the numbers of applications entered onto electronic systems in the month and are therefore likely to reflect in part the availability of NASS data input staff and the number of working days in each month, as well as the level of applications received and any delay in their receipt.
10. Section 55 of the Nationality, Immigration and Asylum Act 2002 came into force on 8 January 2003, restricting the availability of NASS support to those asylum seekers who make an asylum application as soon as reasonably practicable. This affects comparability of data with previous quarters.

Of the total (3,110) cases referred to NASS for a Section 55 decision in the second quarter of 2003:

- ♦ 1,830* cases were notified that they were not eligible to make an application for NASS support on the grounds that their asylum applications were not made as soon as reasonably practicable.
- ♦ 265* cases were considered eligible to make an application for NASS support on the grounds that the asylum applications were made as soon as reasonably practical.
- ♦ 540* were exempted from consideration under Section 55 on the ground of being a family application.
- ♦ 475* were exempted from consideration under Section 55 to avoid a breach of ECHR rights.

Data sources

11. Work is ongoing to produce reliable data from electronic sources, where these are not already used. Every effort is made to remove fraudulent multiple applications from the figures.

National Statistics

12. This publication is produced as part of the National Statistics work programme. Further information about National Statistics is provided at <http://www.statistics.gov.uk/>.

(1) Figures (other than percentages) rounded to the nearest 5 with * = 1 or 2. Applications outstanding rounded to nearest 100.

(2) Initial decisions do not necessarily relate to applications made in the same period and exclude the outcome of appeals or other subsequent decisions.

(P) Data are provisional.

(R) Revised figures.

(1) Provisional figures rounded to the nearest 5. Numbers might not add up due to rounding.

(2) Data for 2000 and March 2003 are based on manual counts of data received in Appeals Support Section (ASS) of the Home Office. Some cases are received elsewhere in the Home Office before being forwarded to ASS and so may be counted in a later month than when they arrived in the Home Office.

(3) Based on electronic sources from 2001.

(4) Based on information supplied by the Department for Constitutional Affairs. Determinations do not necessarily relate to appeals received in the same period.

(5) Based on data supplied from the Presenting Officers Unit within the Home Office.

(p) Data for 2001, 2002 and 2003 are provisional.

(1) Figures have been rounded to nearest 5 (except percentages), with ** = 1 or 2, and are provisional. Figures may not add up due to independent rounding.

Data on appeal outcomes by nationality in this table are derived from electronic sources. Data on appeal outcomes in total (tables 5 and 6) are derived from manual counts which contain slightly more records.

(2) Figures include cases withdrawn by the Home Office, as well as the appellant.

(3) Serbia and Montenegro (SAM) replaced Federal Republic of Yugoslavia (FRY) from 5 February 2003. SAM comprises of the Republic of Serbia, the Republic of Montenegro, and the province of Kosovo (administered by the UN on an interim basis since 1999).

(1) Figures are provisional and rounded to the nearest 5, with * = 1 or 2.

(2) No final confirmation of a decision had been received when these statistics were compiled on 01/08/03.

(3) Cases may be taken out of the Oakington fast track process if more complex issues emerge, which were not apparent at the initial screening stage, necessitating additional enquiries which cannot be conducted within the Oakington timescales. Or when it is decided that for whatever reason, the applicant is no longer suitable for fast track processing.

(4) Serbia and Montenegro (SAM) replaced Federal Republic of Yugoslavia (FRY) from 5 February 2003. SAM comprises of the Republic of Serbia, the Republic of Montenegro, and the province of Kosovo (administered by the UN on an interim basis since 1999)
